EDUCATIONAL SERVICE

GOOD SHEPHERD MAT.HR.SEC. SCHOOL

Building resilience in uncertain times “We can and we will”

June 2021- May 2022: This academic year witnessed the ability of the entire Good Shepherd fraternity to not only bounce back from adversity but to also grow and change. It was very promising to see 1214 students and their families respond positively to the challenges posed by the pandemic. Here's our story:

The students were onboarded to *Google Classroom* with their unique registered email addresses. This ensured a safer Learning Management System for the students, for which the teachers were duly trained to use the same.

Innovate, iterate, iterate

From orientation programs to cool and creative club activities, Founder's Day to Diwali and Christmas, coaching classes to online tests, quizzes and exams, every calendar event was meticulously planned and conducted online. The spirit of fun, curiosity, learning and creativity was kept alive through innumerable competitions ranging from elocution to drawing, singing and dancing, quiz and debates.

Be safe and be well

The vaccination drive by the Government ensured that all teachers and caregivers were duly vaccinated, for their personal safety and wellbeing. This vaccination was later extended to the students of Stds 12 - 7 in a phased manner.

Good Shepherd Ideas Worth Spreading (GSIWS)

The weekly jamming session continued to provide a safe space for children giving them the opportunity to speak and be heard non-judgmentally.

Engagements at the UN events:

What commenced with an expression- “My Voice, Our Equal Future” in IDG 2020, grew multifold through GSIWS, eventually preparing the young advocates to participate in many national and international advocacy events at the UN, including conversation circles geared towards CSW66.

They skilfully moderated the launch of the Research Document titled “A Good Shepherd Practitioner Understanding of Girls Rights’ Attainment – A Review of Rights Realization by Girls in Asia Pacific.” along with fellow students from Good Shepherd schools in Asia Pacific.

International Day of the Girl (IDG2021) - Digital Generation, my generation: The avid students of Good Shepherd Asia Pacific reiterated that Digital Rights are also Human Rights. Enthused by the theme and the stark global reality of lack of digital access for girls, IDG 2021 gave birth to a new project -Girls with Girls for Girls - where the school students can interact, educate and empower their less privileged peers in the society.

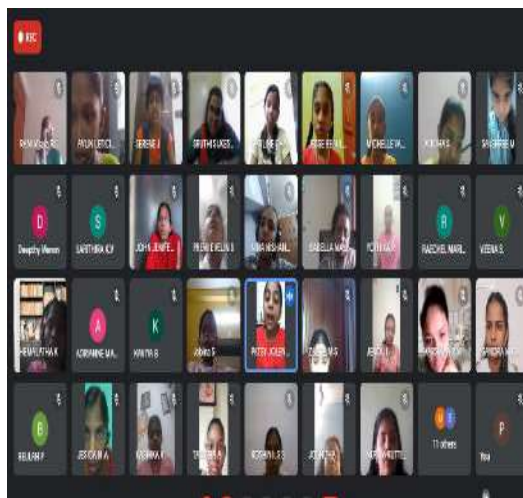

CSW66 – Priority theme: Achieving gender equality and the empowerment of all women and girls in the context of climate change. Our girls participated very actively in the parallel events and even managed to present themselves before a few Member states through the WGG.

Homecoming:

After tentative attempts at hybrid methods of teaching, we welcomed the students with much love and joy to regular school from the beginning of February 2022. The school atmosphere came alive once again with the students wearing masks and maintaining COVID protocols. The school campus restored its beauty with the daily assemblies and other intramural activities.

Sentiments of gratitude:

The students, staff and management graciously saluted the services of their Principal for 13 years and Mrs. D. Nirmala for 36 years as they prepared to retire from the school.

Valedictory Function for the COVID batch: The batches of 2022 were fortunate to have a few months of face-to-face classes, apart from offline exams and celebrations. They were duly given a valedictory ceremony where the students were blessed and bid adieu, amidst their loving parents, teachers and the management.

Exams and Result: This year the Board exams were held in May 2022 for classes 10-12 and for other classes as well.
